I haven't played it! :D

10/10. This is good right here. This "game" is an affront to both game design and art. If you take your time reading through it all and "taking in the sights" you're looking at around 90 minutes of sub-par, plot-hole ridden writing per character, of which there are too many.

In those 90 minutes you'll have a handful of choices, most of which have little to no lasting effect. This game could have been made as a Powerpoint Slideshow. All the dialogue is in desperate need of an editorial by someone whose frontal lobe has not been removed or pierced in some way. The audio is grating, repetitive and generic.

The artwork is sparse and lacking, showing only a fleeting hint of investment when there's an attempt at illustrating sexy poses, all of which also fall flat on their face. Basic concepts of anatomy are thin, and vary wildly between poses/scenes. All the characters pretty much look the same, switch a hairdo around and you're without hope trying to identify a given person. (Unless you can see the chest area, their other lone distinguishing feature) Most textures look to be taken from a simple Google Image search. All the grass is made using the Photoshop Grass Tool.

However, a few of the jokes hit home and Dan is the sexiest creature on this planet. 10/10 must own. This Christmas' "Elmo doll" so to speak.. Edge of Eternity is a odd beast to say the least

So eoe is a love letter to old school final fantasy fans and I like that lets get started
Edge seems at first just like a basic turn based combat system it has a twist it has a move feature let me explain the move feature works like.

This if you or a monster is going to drop a aoe spell you both have a chance to move out the way now this can mess you up if they get behind they can do big damage just like you can do to them.

Character designs

I like the two we get right out the back from a look wise i like the uniform daryon wears and I like selene

Weapons look great from what I have seen

World events

I like these but i hate these I like them because they give you some nice exp in between going to city to dungeons

Dungeons and puzzles

I don't like that puzzles give you a game over if you fail them maybe for the main story ones I can see but the side ones you find out in the world i feel like that shouldn't happen

Exp system

I love the Crystal system for this game it has a path of exiles and Final fantasy X feel to it

Soundtrack is good from what i heard

My final thoughts

Edge of Eternity is a good game for being in alpha and i look forward to seeing this game improve and i hope the devs listen to the fans.

Before i Forget if you have a 970 gtx you can run it on very high to high with next to no lag besides the start up of your save files and please work on the mouth animations for the main character.

I think the devs should feel proud at the end of the day the its a wonderful game i hope it can keep it up. This is an absolute epic City builder, even more if your a Roman Empire aficionado. 5*

Good entertaining game. Not a top notch video game, but entertaining at the least. Ammo is everywhere. Drones can be used when needed. For the price; excellent. Would like to see/play more games like this one.

. Plain, simple, fun. Great to look at, fun to play around with. A worthwhile experience.. Disgusting graphics. No normal lighting. No interaction. Terrible model, crossing themselves, holes in the joints.. I enjoy plant games but there isn't a lot of replayability with this one. The game is short, there's a LOT of clicking involved, there's no storyline or anything. Even the achievements only took a couple hours to get.

I wouldn't buy it unless you have some sort of need to have every plant game available on Steam.. only single player now. Kaos has shut down the Multiplayer servers. It's a cards against humanity like game with some twitch integration. Twitch chat helps with the drama and they come up with some good arguments - It really become a community game. Incredibly fun and I've had some ridiculous arguments that have had me close to dying of laughter. Personally, some of the best money spent on a game and DLC (bought all the decks) and plenty more game play to come. Hope this game spreads like wildfire =]. Look, i've posted good reviews, i've posted bad ones, but this may be the only review that i've had trouble deciding on weather it's good or bad. FFOW is a game that i bought for \$5 because it was on sale. Although made in '08, FFOW presents us with aspects ahead of it's time. I mean, i own Call of Duty: Black Ops 2, and i instantly saw aspects of that here. But honestly, the only part that makes me indecisive here, is the fact that they seem to have canceled the multi-player. This may just be my own computer, but it looks like it's over (As is the case with some other older FPS games, some of which would have had merit had the designers bothered to keep the servers up) It is a nicely made game with good concepts, but all-in-all, 7/10.. I can say a lot about this game, it has a lot of flaws such as the blocky style, the tank controls, the really bad storyline, the annoying puzzles, it wasn't updated before it was added onto Steam so it has a tendency of crashing at random and let us not forget *MONKEY COMBAT* which takes up a good majority of the ending of the game and is randomized everytime you play it.

That being said if you want to complete your Monkey Island collection (all four of the original games made by LucasArts, Tales of Monkey Island are no longer available.) then this game is for you.

It's not all bad though, if you want to relive the nostalgia of playing the final game in the series, remeet with and play as the lovable and dashing pirate Captain Guybrush Threepwood voiced by the Handsome Dominic Armato, and go on adventures that are chock full of silliness then it's worth the bugs and worth giving a chance.. I got this product on sale and I'm very happy I did. Add public I wouldn't wanna pay the price for it at this point in time But it is definitely original with a cool story some updated graphics this could be really something.. I have to recommend this game because you have to see it to believe it. (Don't actually see it, there is nothing to believe other than it sounds waaaaay better than it is!)
